

WEEE
(RUSZ)

Leonardo Recycling SET

Organisation

- **Part of**
 - the “Kick off”-Meeting of the “Equal”-project “EcoNet-Austria” on the 14th of July 2005
 - 3 follow-up workshops so far
- **In charge**
 - RUSZ/ DRZ in cooperation with Arge Abfallvermeidung (EcoNet coordination)
- **Objectives**
 - Inform EcoNet-Members members on:
 - What is the Recycle-Set?
 - How to use it?
 - What are the benefits for us and how we can make an integrative part within the EcoNet-project?

Target group

- **Target group:**
 - Managers and directors of Social Enterprises
 - 17 enterprises, who are the principal target enterprises in the project
 - 8 multiplication employees in the social enterprises, who are responsible for the implementation of the WEEE activities (collection, sorting, re-use, dismantling, selling...) in the enterprises
 - Persons coordinating the Equal-project (general coordination and modules' coordination)
- **Program of course:**
 - was based on the handbook and the resume of the modules

Program

1. Leonardo RECYCLE-Set

- Contents:
 - What is the Leonardo RECYCLE-Set?
 - What are the modules and the contents of the modules?
 - How to use them and what can be learned in them?
 - How to get the access to E-learning tool?
- Speaker: DRZ (Markus Spitzbart)

2. RREUSE-Network and National Legislation

- Contents:
 1. What is the RREUSE-network?
 2. Objectives of the network?
 3. National legislation concerning WEEE
- Speaker: RUSZ (Sepp Eisenriegler)

Results

- Participants: 22
 - 15 directors, managers and multiplication employees of SE
 - 5 persons of the EcoNet-coordination
 - 2 persons of a waste collection company
- Contents
 - Market exploration: New situation. First analysis. Start research
 - Legislation: a big help to understand the national legislation
 - Strategy: 15-30 SE start with WEEE-activities at the moment, the Recycle-Set gives them the basic knowledge to start their business concepts
 - A little bit more practical information in the tool would be useful
 - RREUSE: big interest, that there exists an European platform
- Concept:
 - the Recycle-Set will be an integrative part of the EcoNet-project

Results

- Objectives reached?
 - Participants
 - all of the multiplication employees started their job in july/august: Recycle-Set is a good tool to get principal knowledge about WEEE an social aspects
 - a little bit insatisfied, that they did not get the access already during the workshop
 - RUSZ/DRZ
 - VERY satisfied about the interest of the participants
 - The E-learning tool will help us a lot to get participants of the EcoNet-project into the subject
